Tafe Day had the Nursery Packed and Buzzing

Late last year Cairns Tafe students worked a day in the nursery to take part in some practical lessons whilst they were taking part in their certificate 4 in Conservation and Land Management. They worked hard cleaning up weeds from under the plant benches, learned about how to pot native seedlings and also learned a lot about seed propagation. The students shared a lovely morning tea with us and after lunch we

went down to the river to plant, mulch and water 130 trees. A great day was had by all.

December Tropical Tree Day Success

A fun day was had by all 29 volunteers who showed up with their friends and families to plant 846 trees! This was done in less than 2 hours as the holes had been previously dug the day before. Marvellous effort by everyone involved. It was great to see our regular planters and some newbies too. It seems our social media Facebook page is turning out to be a wonderful tool in our quest to get some new and

young upcoming activists on board! Keep em coming... If you would like to join our group you will find us on Facebook at Kuranda Envirocare.

COMMUNITY TREE PLANTING -

Sat. 2nd Feb 7:30 till 9am at our new site - Mantaka

We'll continue on from our last planting and aim to plant another 800 trees. All of the holes will be dug and fertilized. We just need a bunch of energized volunteers who would like to be part of a fun day filled with love for this beautiful planet we live on!

Follow signs on Myola/ Oakforest Rd. Park at the lay by, just under the bridge and walk the mowed track in. Alternatively you can ring Margaret or Sylvia on 4093 8393. Don't forget your hat and water! Bring gloves and a trowel if you have them. This will be followed by Envirocare's trademark scrumptious morning tea!

"Be the change you want to see"

Special recognition for our local frog

We've been successful in obtaining a grant from the Mohammed bin Zayed Fund, which focuses on threatened species around the world. This will allow us to start a frog monitoring project, centred on the Kuranda tree frog. Frog researcher Conrad Hoskins will design the recording method and provide training. If anyone is interested in being part of the monitoring team or wants more information, please contact Cathy on 4093 9926.
