Small World Journeys travel to revegetate the Barron River

In the past month, we have worked with four groups of international students, aged from 15-17, from a travel company called Small World Journeys. The students planted 330 trees altogether and were interested to learn the reasons behind their hard work. Erosion control, creating habitat & food sources for animals and birds, increasing biodiversity and repairing degraded areas, were among the things we talked about.

Sylvia with Small World Journeys planting team.

PLANT OF THE MONTH – Garcinia warrenii

Seedlings available for \$2

(Native Mangosteen) is a bushy tree with highly fragrant white flowers and edible purple fruit although there is no comparison in taste to the true Mangosteen (*Garcinia mangostana*). It has a beautiful red flush in winter, in contrast to deep green shiny older leaves and it is quite common to see them in Kuranda. Slow growing, they can be planted in shady areas to enjoy their colour and clove-like perfume.

Family Commemorative Tree Planting

One of our long-term volunteers reunited with her family by getting together on the banks of the Barron River for some good old fashioned tree planting. The relatives involved travelled from Italy, Tasmania and Sydney to reunite and plant trees in memory of their Nona and Pa Eite.

Peaceful beside the Barron

Internationally recognised Threatened species- Litoria myola

Calling all those who would like to be part of an internationally funded conservation effort here in our own backyard. Dr Conrad Hoskins, the frog researcher, will be in Kuranda on w/e 8th & 9th September to set up our monitoring stations. One evening is sufficient training, so you may choose which one suits. Monitoring sites will have easy access and be dry. Please contact Cathy on 4093 9926 to book your place.

Date Claimers

Envirocare exec meeting Thu 1 August 7:00pm
19 Kullaroo Close, All members welcome.

Myola frog **monitoring training** – w/e 8 & 9 September

Box trailer for hire, ring Garth on 4093 9926
